

COMPANY PROFILE

We are involved in design and building of center pivot System,providing modern solutions that enhance water efficiency and increase agricultural productivity. Our systems are designed for large scale farms offering automated and precise irrigation to help farmers conserve water while boosting crop yields. With focus on durability and ease of maintenance,we deliver reliable solutions that meet the involving needs of modern agriculture.

WHY CHOOSE US

TECHINICAL EXPERTISE:

Our team comprises proficient individuals with extensive technical skills and experience.

MODERN AGRICULTURE PRODUCTS:

We offer high end modern agriculture products and facilities, prioritizing quality and durability.

COST -EFFECTIVE SOLUTIONS:

We provide cost-effective technical solutions to maximize the benefits of our clients investment.

DEDICATE AFTER -SALES SUPPORT:

We are committed to providing dedicated after sales services and support to ensure the growth of our clients in modern farming practice.

WHAT WE DO

We aim to meet the needs and demands of our clients by exceeding their expectations. Our focus is on modernizing agriculture practices through:

- Design and construction of Irrigation Infrastructures,
- Design and construction of geomembrane material,
- High -tech Irrigation engineering, Civil and water works,
- Building and procurement services, Supply of high quality seeds, Construction of Modern Dairy Farms

SUPPLY AND INSTALLATION OF GEOMEMBRANE MATERIALS

Geomembranes/liners are becoming of high demand particularly for water reservoirs in irrigation projects as well as ponds in fish farming projects. We work with Geomembrane materials such as HDPE lining materials, GCL Bentoliner, Geotextile e.t.c to ensure both quality and durability for our customers` satisfaction. Our well-versed expertise in installation of geomembranes/liners has been gathered through working at the mining sites, big irrigation projects as well as big fish farming projects

CONSTRUCTION OF MODERN DAIRY FARMS

Pro Agro Global Ltd is exclusively involved in modern dairy farm construction, We deal with:

- . Implement cutting-edge milking system and automation technologies.
- . Construct energy-efficient barns with superior ventilation and lighting.
- . Enhance waste management system to reduce environmental impact.
- . Improve feed storage and handling facilities to ensure high-quality nutrition for our cows.

SUPPLY, DESIGN & INSTALLATION

We also expertise in the supply, design and installation of center pivot system which is a system that can easily manage water levels in the soil due to the semi-automatic operation of center pivots and its lateral moves. Water application efficiency ranges up to 80%, depending on management and designed installation in the field.

IRRIGATION SYSTEMS

Our expertise and experience in modern irrigation covers both supply and installations of irrigation systems and facilities to SME's, large corporates and organizations as well. We are focused to be dynamic in this field therefore are fully engaged supply of products as well as installation of drip irrigation systems sprinkler irrigation as well as center-pivot irrigation systems.

SUPPLY, DESIGN & INSTALLATION OF GREENHOUSE

Providing high-end facilities and products for greenhouses and screenhouses of both galvanized and wooden frames. Our obsession is on the quality and durability of our materials of these facilities. The demand for greenhouses is constantly rising due to the fact that the varying climatic conditions is no longer favoring traditional agriculture practices therefore we are firmly holding into supplying of best quality greenhouse materials as well as construction of durable greenhouse facilities

MINING CONSTRUCTION AND SERVICES

PAGS prides itself in installation of liners on major mining sites, repairing services and other construction services at mining sites.

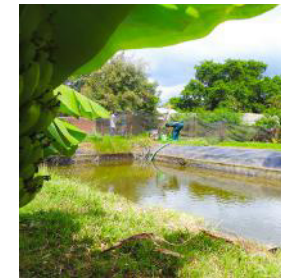

FISH FARMING PROJECTS

As fish farming is becoming highly evolving part of modern farming and as the demand is exponentially gaining the momentum to the epic we have made it our business goal to provide fish farming services and products to ensure the a dynamic evolution of modern fishing projects. Our services extend from construction of fish ponds using geomembrane materials supply of fish fingerlings, supply of fish foods as well as consultancy service for fish farming projects.

OUR SERVICES FOR FISH FARMING PROJECTS ARE

- Construction of fish ponds
- Supply of fingerlings
- Supply of fish feeds
- Supply of pond management products
- Consultancy service in fish farming

OTHER SERVICES

SUPPLY OF WATER TANKS

By partnering with major manufacturers of water storage tank for the sake of allowing our modern agriculture clients to be flexible with their budgets and preference, we also deal with supply of water tank for water storage purpose for variety of use, irrigation being one of them.

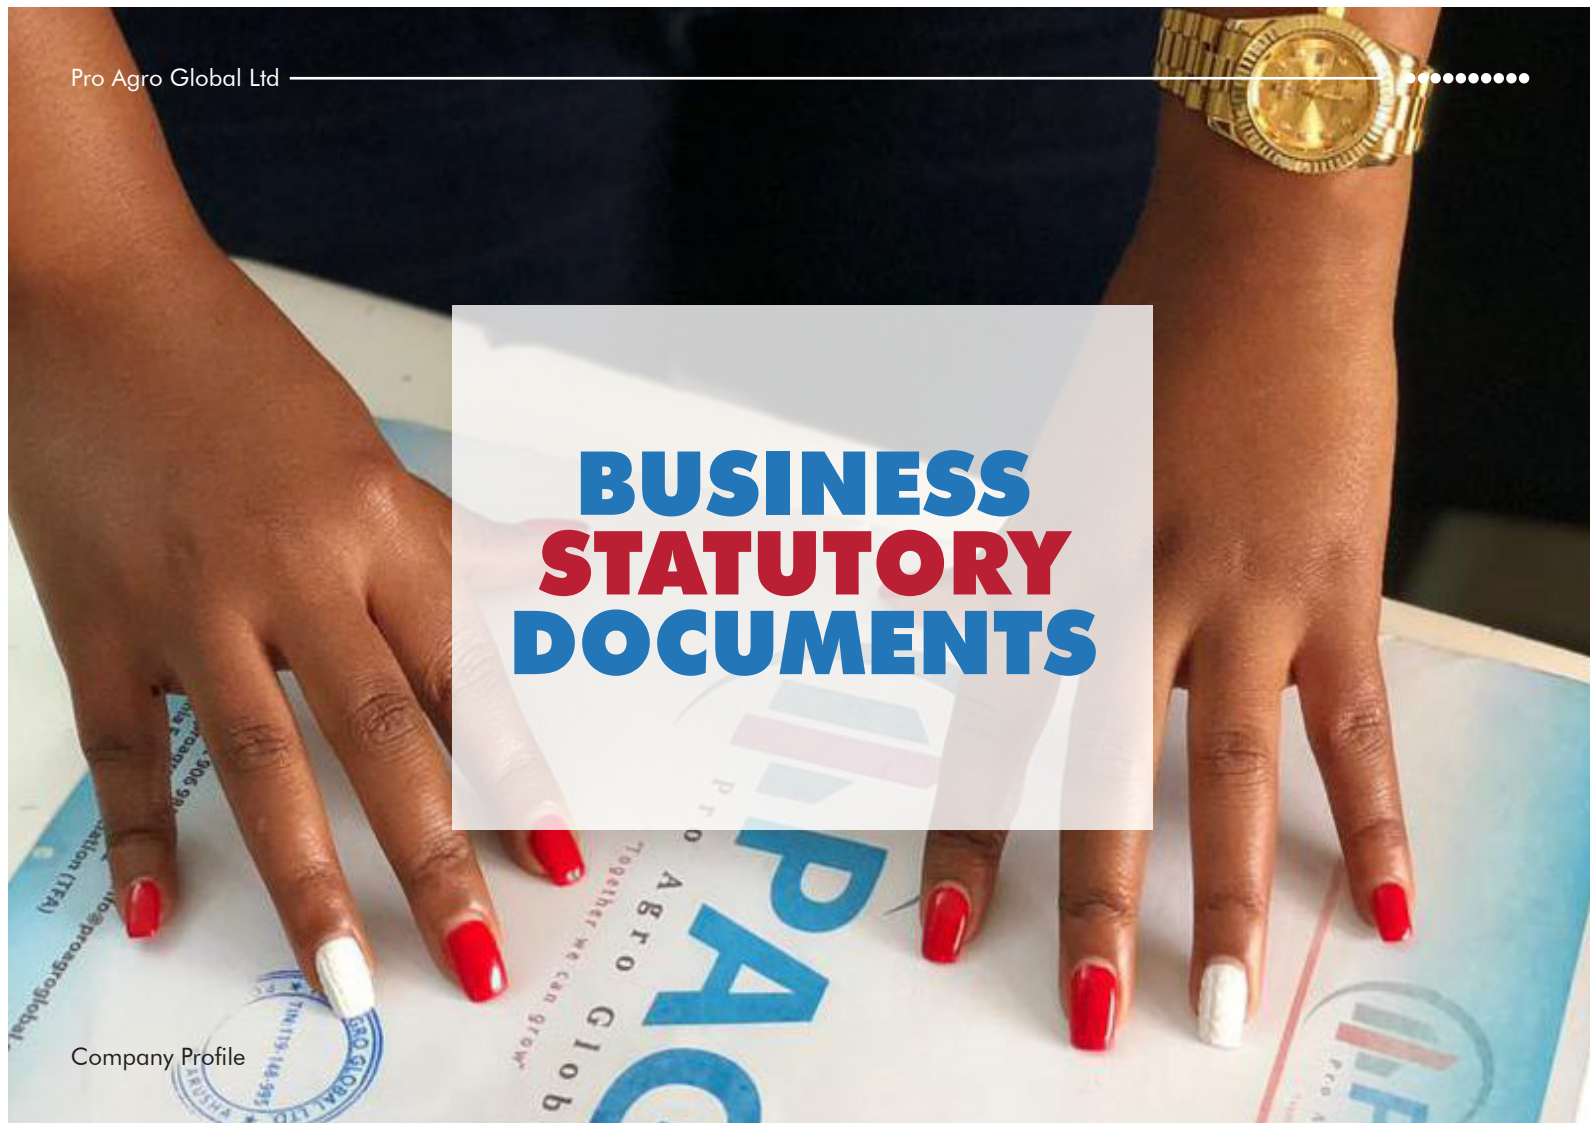

We supply variety of sizes and capacity to suite a wide range of use for our customers. We are obsessed with the quality and durability of these products therefore we make sure that our clients get the best out of their investment

WATER DRILLING

With our vast experience in wide range of large irrigation schemes we noticed the challenges facing some of our clients in getting water for their farming projects. We made it an opportunity to provide water drilling services to our clients to solve the problem of water inadequacy for their farming projects.

Our company is now deeply invested in water drilling projects by focusing in evolving our technology in drilling with machineries and technical staffs to and intimate understanding to our clients needs.

LIST OF EQUIPMENTS

S/NO	EQUIPMENT/TOOLS	CONDITION	OWN/LEASE	DESCRIPTION
1.	Cat d8 bulldozer	Good	Lease	Make -1975 Year -2
2.	Cat crown excavator 320 d 02 units	New	Lease	Make -1925 Year 1
3.	Articulated dump trucks adt 15m3 capacity 30 tones	Good	Own	Make -1999 Year -1
4.	Smooth drum roller compactor 15 tonnes 01 units	Good	Lease	Made -2600BC Year 2
5.	Backhoe 01 units	Good	Own	Make -2000BC Year -2
6.	Wedge welder	Good	Own	Make 2005 Year 4
7.	Wedge welder	Good	Own	Make 2005 Year 4
8.	Extrusion machine welder	Good	Own	Make 2008 Year 5
9.	Extrusion machine welder	Good	Own	Make 2008 Year 5
10.	Heat gun	Good	Own	Make 2010 Year 3
11.	Angle Grinder Machine	Good	Own	Make 2001 Year 3
12.	The electric generator petrol engine	Good	Own	Make 1999 Year 5
13.	Tension meter	Good	Own	Make 2010 Year 3
14.	Spark test	Good	Own	Make 2020 Year 3
15.	Pro -Wedge machine Model Vm-20AU/A	Good	Own	Make 2020 Year 3
16.	Dem - Tech- Pro-Xm Extrusion welder machine	Good	Own	Make 2020 Year 3
17.	Complete set of Leister Machine	Good	Own	Make 2020 Year 3

PAST EXPERIENCE

Name of the client: Macjaro Limited
Project name: Construction, Supply and Installation of liner at
Mkwasira dam
Year: 2021
Status of the Project: Completed

Name of the client: Barrick Gold Mine (Bulyahulu Gold Mine)
Project name: TSF Pond repairing work and HDPE DAM Liner
Year: 2022
Status of the Project: Complete/On progress

Name of the client: Barrick Gold Mine (Bulyahulu Gold Mine)
Project name: PSRWP water pond liner works
Year: 2022
Status of the Project: Completed

Name of the client: Shanta Gold
Project name: Supply of HDPE pipe/ smooth HDPE Geomem-
brane/HDPE Liner/ UPVC pipe sloted and unsloted
Year: 2021 - To date
Status of the Project: Complete/On progress

Name of the client: World Vision Tanzania
Project name: Construction works
Year: 2020
Status of the Project: Completed

Name of the client: Tanzania National Parks
Project name: Supply and Construction works
Year: 2020
Status of the Project: Completed

Name of the client: RECODA (Research Community and
Organization development Associates)
Project name: Construction Works
Year: 2021
Status of the Project: Completed

Name of the client: TARI
Project name: Construction Works
Year: 2021
Status of the Project: Completed

Name of the client: SBL Tanzania
Project name: Construction Works
Year: 2022
Status of the Project: On Progress

PAST EXPERIENCE

Client Name: National Irrigation commission
Project Name: Design and Building of irrigation infrastructures
Year: 2023-2024
Status of the project: On Going

Client Name: Agriculture seed agency
Project Name: Design and Building of 800Ha of irrigation system
Year: 2023
Status of the project: On Going

Client Name : Global Water & Energy Group
Project Name: Installation of HDPE Liner's and supply of Geotextiles
Year 2023-2024
Status: On progress

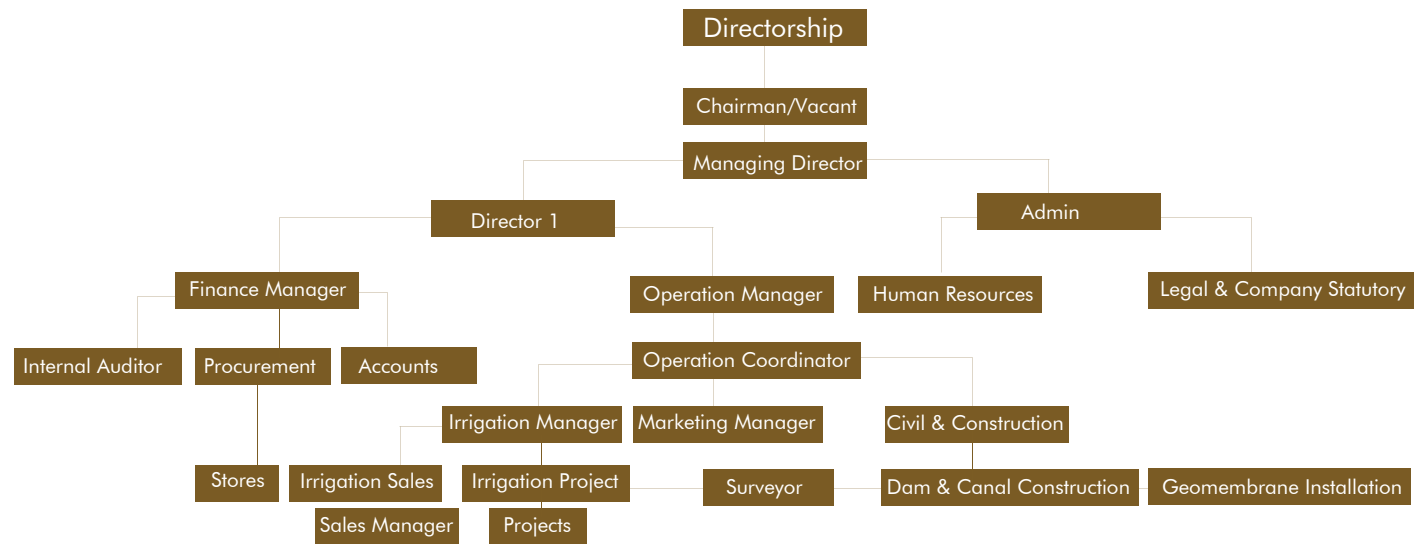

Client Name: Buckeeef Gold Mine
Name of project : Supply of HDPE Liner
Year 2022-2023
Status : in progress

Client Name : Swala Solution
Project name : Supply of HDPE Geomembrane
Year: 2023
Status: on progress

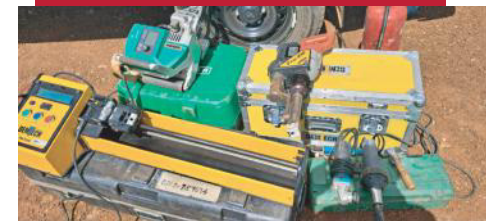

Name of the client: TARI
Project name: Construction of Screen Houses
Year: 2024
Status of the Project: Completed

Client Name: Magiri Dairy Farm
Project name: Construction of Modern Dairy Farm
Year: 2023 - 2027
Status: On Going
